

Ezy-Mount® Plug'n Play Wiring I/F Kit

P/N S-PWR-IF

(Use only with Parking Lamp/Wedge Type 194 Sockets)

READ INSTRUCTIONS THOROUGHLY, INVENTORY HARDWARE AND FAMILIARIZE YOURSELF WITHEACH PIECE & IT'S ASSOCIATED USE BEFORE BEGINNING INSTALLATION.....

Note: **Designed for the 2004-07 BMW R1200GS, and all newer 2007 models where the parking lamp socket is accessible for use.**
Also applicable to any bike with the same size wedge type 194 bulb socket used by BMW (Appx .50 OD x .70 L)

This kit provides a switched power source, via a simple I/F to your factory parking lamp bulb socket. Simply remove parking lamp socket from rear of headlamp assy, remove bulb, insert wafer end of I/F kit into factory bulb socket. Insert bulb into the new I/F harness bulb socket, and re-insert bulb socket into rear of headlamp. Power is tapped from the wafer board via the 12" black w/red stripe lead. This lead should be spliced to your light kit (+)switch power lead. A 'single direction flow' diode is built into the configuration of the wafer board, to prevent any possibility of power spikes being allowed to flow back to your bikes 'CAN BUS' System.

NOTE: **Test for, and if power is not detected via 12" black w/red stripe lead, after inserting wafer into the factory bulb socket, simply remove and rotate 180 degrees.**

After power is verified, install heat shrink over the socket and the PC Wafer Board, & use heat gun to shrink down.

Plug'n Play capability may, but is not guaranteed, to preclude any problem that could be associated with your factory electrical system warranty, which could result from cutting or splicing into the existing factory wiring.

CAUTION: This single wire 12V lead is designed to power only a relay. Using it for any other purpose may damage your bikes electrical system. Please ride safe & smart.

Parts List: 1 Wire I/F Assy, w/12" directional power lead 2 Heat Shrink

Thank you for purchasing our product. Please feel free to provide comments about your experience with the installation of the kit. Please Email comments to me at jolawson@verizon.net, or forward by mail to address listed below. Thank You ☺

► **Refund Policy:** Ezy-Mount Products will refund the purchase price and applicable taxes, if any, for items that are found to be defective in material or workmanship. Items must be returned, **unused, in their original packing along with Original invoice.** You must contact the sales office for a Return Material Authorization (RMA) number before returning any items. The RMA number must appear on the outer packaging of the returned item.

► **Liability:** Motorcycle damage due to modifications, improper installation, road hazards or accident, are not covered. Seller's only obligation shall be to replace product proved to be defective. Seller shall not be liable for any injury, loss or damage, direct or consequential, arising out of improper installation, or inability to use product. **Before using, user shall determine the suitability of the product for its intended use, and user assumes all risk and liability, whatsoever, in connection therewith.**
